

**Sherri Penn, Board Member** – Sherri was born and raised in Zurich, where her & her husband still reside. Sherri has a daughter who lives & works in London & 3 fantastic step sons who live locally as well. For 25 years, she has worked as an Emergency Room R.N. in Exeter, & casually in the Clinton operating room. She has always had a love for people and helping people. Very tragically in September 2018, her precious 17-year-old son, Scott, died by suicide. Something she knows will never recover from. After his death, she used the services of the Huron-Perth Centre. She is honored to be part of this wonderful organization & hopes to make a difference in the lives of people in this surrounding community who access & need access to this service.
